

## IHS Protecting Children

All providers must complete IHS Protecting Children from Provider Sexual abuse LMS course.

The Indian Health Service is committed to providing a safe, professional, and culturally appropriate environment to ensure protection of our patients and prevent their harm to the best of our ability, especially children. The IHS has taken aggressive actions to protect patients and sexual assault and abuse will not be tolerated. This message is to inform you that all IHS employees, contractors, and volunteers are required to complete "Protecting Children from Provider Sexual Abuse" training course.

The course is available at [IHS Sexual Abuse Prevention website](#) for non-IHS computer network user.

You must provide the **"Congratulations"** screen from the end of the training, **signed, and dated**. I have attached an example of the screen that is needed.

Respectfully,

Tribal Health, LLC

**Congratulations**

You have passed the knowledge check. Please select the Exit Button to return to the Learning Management System (LMS)
